Secures CTP Orders
at Eight Newspaper Operations**

Rolling Meadows, IL, May 2, 2008 — alfaQuest Technologies is pleased to announce the following newspaper orders/installations of FasTRAK & NewsXpress violet CTP systems to:

Boulder (CO) Daily Camera
NEWSPAN Media Corp. (TX)
De Kalb (IL) Daily Chronicle
Casa Grande (AZ) Valley Newspapers
International Falls (MN) Daily Journal
Cadillac (MI) News
Greensburg (PA) Tribune-Review
Warrendale (PA) T-R Newsworks

The alfaQuest CTP systems are equipped with state-of-the-art imaging technology and use a highly reliable opto-mechanical system, which guarantees precision plate alignment and positioning, ensuring accurate repeatability for color registration. This coupled with an automatic plate loader allows for automatic slipsheet removal with no degradation in throughput.

The alfaQuest CTP configurations offer the lowest investment and support prices of any violet CTP. Violet laser technology offers dramatically less energy consumption than any of the thermal devices.

Less green from your pocket — more green for the planet.

alfaQuest Technologies is a leading provider of innovative and leading edge publishing systems, imaging devices and workflow management systems. Our products include FasTRAK and NewsXpress Violet CTP, TRAKmate 2 and NewsMATE Autoloaders. Workflow solutions include PrintExpress/CPM (Consolidated Production Management) and PLATEmate systems for Sun and Windows and alfa CTP Workflow systems for Macintosh and Windows.

alfaQuest Technologies, Inc., a member of the IPA Group of companies, designs, integrates, and supports powerful cost-efficient, newspaper workflow page processing and imaging systems for the publishing industry. The number of worldwide installations now exceeds 10,000.
